

MATTHEW FROMMEYER

IT Specialist with 4+ years of experience supporting enterprise Windows and Microsoft 365 environments. Experienced in Active Directory, Microsoft Entra ID, Intune, SCCM, endpoint deployment, and user lifecycle management. Proven ability to support large distributed organizations while improving operational efficiency through automation and process improvement.

EXPERIENCE

Network Technician

Roman Catholic Diocese of Rochester | Rochester, NY | September 2025 - July 2026

- Provided technical support for 14,000 users across 200+ locations, troubleshooting hardware, software, networking, VPN, and authentication issues in a large distributed enterprise environment.
- Managed onboarding and offboarding processes through Microsoft Entra ID and Active Directory, including account provisioning, access management, and equipment preparation.
- Collaborated with infrastructure and engineering teams to resolve escalated incidents.
- Documented troubleshooting steps and resolutions in IT service management system to improve knowledge base accuracy.
- Supported Microsoft 365 services including Exchange Online, Teams, and user account administration.

IT Analyst

Phillips Lytle | Buffalo, NY | March 2025 - June 2025

- Resolved an average of 30 support tickets per week while maintaining high user satisfaction and SLA compliance.
- Created and configured user accounts and hardware for seamless Day 1 onboarding.
- Developed and managed Windows 11 images via Microsoft SCCM to standardize upgrades.
- Oversaw hardware and peripheral replacements during transition from Windows 10 to Windows 11, minimizing downtime.

IT Support Specialist

Sonwil Distribution Center | West Seneca, NY | August 2022 - March 2025

- Resolved user issues via phone and ticketing system for HQ employees and warehouse staff.
- Provided 24/7 on-call support to assist end users in facilities on overnight shifts and weekends.
- Automated recurring support tasks using SQL scripting, reducing manual effort and improving support team efficiency.
- Conducted daily audits of multiple Sonwil systems to ensure operational readiness, as well as escalating immediately to the appropriate teams if an issue arose.
- Supported mission-critical warehouse operations by resolving technical issues impacting logistics and fulfillment systems.
